

H24 Frame

Whiteboard

A wall mounted, high quality porcelain enamel whiteboard suited for use across learning and working environments.

A regular feature in classrooms and offices, BACH's classic wall mounted whiteboards are fabricated using a combination of porcelain and steel to create a product unrivalled in the industry.

Key features & benefits

- Highest grade vitreous porcelain enamel surface on the market (e³ ceramic steel)
- Smooth writing and optimum erasability using ultra gloss surface
- Smooth, inert and magnetic surface
- Low gloss surface option for projection purposes or high glare environments
- Outstanding durability with a lifetime surface warranty
- BACH H24 frame in standard anodised aluminium finish
- H24 concealed fixings system
- Standard full length pen tray
- Fabricated in Australia

The Industry's finest.

Magnetic, scratch resistant and durable, BACH whiteboards come in standard sizes or custom made to your requirements. Choose from an ultra gloss surface for heavy use and optimum erasability or low gloss surface for projection purposes and/or high glare environments.

Product Specifications

Details

Installation

H24 Mechanical fixing method. Frame designed to hide screws when installed.

Panel thickness

11mm. (17mm overall thickness from wall)

Surface Finish

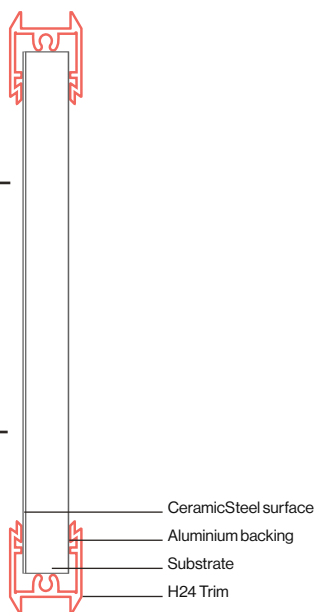

The surface finish is e³ vitreous porcelain enamel and is available in Ultra Gloss, Low Gloss or Hygienic.

Product Weight

Maximum 16kg/m².

Frame colours

Anodised clear 15µm or powder-coat in any colour in the Dulux colour range.

BACH Whiteboards are manufactured with PolyVision e³ CeramicSteel, ensuring durability and quality, as well as superior marker to whiteboard colour contrast.

Quality Assurance

Pushing technological boundaries.

The sturdy build and quality of BACH whiteboards ensures that they can be used as a traditional whiteboard or in tandem with a projector to create a dynamic learning or working environment.

Productivity in any environment.

The BACH whiteboards are offered in ultra gloss for easy erasability in circumstances of high use, low gloss for easy visibility in high glare environments, or Hygienic for added bacterial and viral elimination properties.

Cut to size in more ways than one.

The BACH whiteboards come in a number of different sizes to suit a variety of spaces, as well as custom sizes that are made to order. The H24 frames can be customised to any colour in the Dulux range, suiting any space's aesthetic.
